About Rob Lytle

After a nearly 14-year break from performing, Rob has experienced a whirlwind musical rebirth over the past four years with a busy touring schedule, an appearance as a finalist in the prestigious Kerrville Folk Festival "New Folk" competition, and juried showcase appearances at major industry events.

His 2011 CD -- You. Must. Stop. -- reached the top 25 for folk and roots radio in both Europe and the US and was praised by Maverick Magazine as "one of those all-too-rare albums where every track is a standout."
